

# Forums for a Nuclear-Free New York

Third  
in the  
Series

## “Debunking Nuclear ‘Hopium’” with Dr. Gordon Edwards

As New York charts its energy future, nuclear power is being rebranded as a “climate solution.” Small Modular Nuclear Reactors (SMNRs), Advanced Nuclear Reactors (ANRs), and even fusion are being promoted as clean, safe, and inevitable. **But what are the facts?**

Please join us on February 26th for an important public webinar featuring renowned nuclear expert **Dr. Gordon Edwards**, who will break down the facts behind the hype.

Gordon Edwards is president and co-founder of the Canadian Coalition for Nuclear Responsibility. A retired professor of mathematics and science at Vanier College in Montreal, Dr. Edwards has served as a consultant on nuclear issues for governmental and non-governmental bodies for over 45 years.

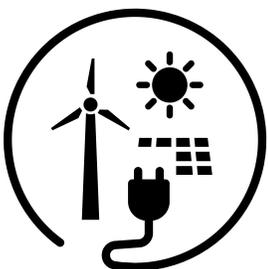

Thursday,  
February 26th  
2:00 pm
