

## INDEX

### Independent Science on the Effect of Gas Leaf Blowers on Human Health

(compiled by Grassroots Environmental Education)

- I. Occupational Health Hazards
  - A. Benzene
  - B. Formaldehyde
  - C. 1,3 Butadiene
- II. Fine Particulate Matter (PM2.5)
- III. Course Particulate Matter (PM10, PM10-2.5)
- IV. Noise
- V. Ozone
- VI. Ecosystem Disturbances
- VII. Ordinances/Resolutions
- VIII. Miscellaneous

#### I. Occupational health hazards

##### A. Benzene

1. Khalade, A, et al. "Exposure to benzene at work and risk of leukemia: A systematic review and meta-analysis." *Environmental health* 9:31 (2010). <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2903550/>
2. Marchetti, F. et al. "Occupational exposure to benzene and chromosomal structural aberrations in the sperm of Chinese men." *Environmental health perspectives* 120:2 (2012) 229-234. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3279447/>
3. National Toxicology Program, U.S. Department of Health and Human Services. "Report on carcinogens profile: Benzene." *Report on carcinogens, fourteenth edition* (2016). <https://ntp.niehs.nih.gov/ntp/roc/content/profiles/benzene.pdf>
4. Vlaanderen, J. et al. "Occupational benzene exposure and the risk of lymphoma subtypes: A meta-analysis of cohort studies incorporating three study quality dimensions." *Environmental health perspectives* 119:2 (2011) 159-167. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3040601/>

##### B. Formaldehyde

1. National Toxicology Program, U.S. Department of Health and Human Services. "Report on carcinogens profile: Formaldehyde." *Report on Carcinogens, Fourteenth Edition* (2016). <https://ntp.niehs.nih.gov/ntp/roc/content/profiles/formaldehyde.pdf>
2. Zhang, L. et al. "Formaldehyde exposure and leukemia: A new meta-analysis and potential mechanisms." *Mutation research* 681 (2009) 150-168. <https://www.sciencedirect.com/science/article/pii/S1383574208001002>

##### C. 1,3 Butadiene

1. Cheng, X. et al. "The association between genetic damage in peripheral blood lymphocytes and polymorphisms of three glutathione S-transferases in Chinese workers exposed to 1,3-butadiene." *Mutation research* 750 (2013) 139-146. <https://www.sciencedirect.com/science/article/pii/S1383571812003403>
2. National Toxicology Program, U.S. Department of Health and Human Services. "Report on carcinogens profile: 1,3 Butadiene." *Report on carcinogens, fourteenth edition* (2016). <https://ntp.niehs.nih.gov/ntp/roc/content/profiles/butadiene.pdf>

3. Sielken, R. L., & Valdez-Flores, C. "A comprehensive review of occupational and general population cancer risk: 1,3-Butadiene exposure-response modeling for all leukemia, acute myelogenous leukemia, chronic lymphocytic leukemia, chronic myelogenous leukemia, myeloid neoplasm and lymphoid neoplasm." *Chemo-biological interactions* 241 (2015) 50-58.  
<https://www.sciencedirect.com/science/article/pii/S0009279715002379>

## II. Fine Particulate Matter (PM2.5)

1. American Lung Association. "Health effects." *State of the air* (2017) 35-40.  
<http://www.lung.org/assets/documents/healthy-air/state-of-the-air/state-of-the-air-2017.pdf>
2. Atkinson, R. W. et al. "Epidemiological time series studies of PM2.5 and daily mortality and hospital admissions: A systematic review and meta-analysis." *Thorax* 60 (2014) 69-660.  
<http://thorax.bmj.com/content/69/7/660>
3. Krishnan, R. M. et al. "Vascular responses to long- and short-term exposure to fine particulate matter." *Journal of American college of cardiology* 60:21 (2012) 2158-2166.  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3665082/>
4. Leiva G, M.A. et al. "A five-year study of particulate matter (PM2.5) and cerebrovascular diseases." *Environmental pollution* 181 (2013) 1-6.  
<https://www.sciencedirect.com/science/article/pii/S0269749113003175>
5. Madrigano, J. et al. "Long-term exposure to PM2.5 and incidence of acute myocardial infarction." *Environmental health perspective* 121:2 (2013) 192-196. <https://ehp.niehs.nih.gov/1205284/>
6. Power, M. C. et al. "The relation between past exposure to fine particulate air pollution and prevalent anxiety: Observational cohort study." *BMJ* 350 (2015). <http://www.bmj.com/content/350/bmj.h1111>
7. Raz, R. et al. "Autism spectrum disorder and particulate matter air pollution before, during, and after pregnancy: A nested case – control analysis within the Nurses' Health Study II cohort." *Environmental health perspective* 123:3 (2015) 264-270. <https://ehp.niehs.nih.gov/1408133/>

## III. Course Particulate Matter (PM10, PM10-2.5)

1. Baccarelli, A. et al. "Exposure to particulate air pollution and risk of deep vein thrombosis." *Archives of internal medicine* 168:9 (2008) 920-927.  
<https://jamanetwork.com/journals/jamainternalmedicine/fullarticle/414214>
2. Brook, R. D. et al. "Hemodynamic, autonomic, and vascular effects of exposure to coarse particulate matter air pollution from a rural location." *Environmental health perspective* 122:6 (2014) 624-630.  
<https://ehp.niehs.nih.gov/1306595/>
3. Chen, J. C., & Schwartz, J. "Metabolic syndrome and inflammatory responses to long-term particulate air pollutant." *Environmental health perspective* 116:5 (2008) 612-617.  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2367655/>
4. Shanley, R. P. et al. "Particulate air pollution and clinical cardiovascular disease risk factors." *Epidemiology* 27:2 (2016) 291-298. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4959464/>
5. Vaduganathan, M. et al. "Risk of cardiovascular hospitalizations from exposure to coarse particulate matter (PM10) below the European union safety threshold." *The American journal of cardiology* 117:8 (2016) 1231-1235.  
<https://www.sciencedirect.com/science/article/pii/S0002914916301631>

6. Zhao, Y. et al. "Ambient fine and coarse particulate matter air pollution and respiratory morbidity in Dongguan, China." *Environmental pollution* 222 (2017) 126-131.  
<https://www.sciencedirect.com/science/article/pii/S0269749116322941>

#### IV. Noise

1. Balanay, J. A. G. et al. "Assessment of occupational noise exposure among groundskeepers in North Carolina public universities." *Environmental health insights* 10 (2016) 83-92.  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4909058/>
2. Balanay J. A. G. et al. "Noise exposure assessment among groundskeepers in a university setting: A pilot study." *Journal of occupational and environmental hygiene* 13:3 (2016) 193-202.  
<https://www.tandfonline.com/doi/full/10.1080/15459624.2015.1091967?scroll=top&needAccess=true&instName=James+Madison+University>
3. Basner, M. et al. "Auditory and non-auditory effects of noise on health." *The lancet* 383 (2014) 1325-1332. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3988259/>
